

## R Module 1 Rubric

This R module is pretty simple; there aren't that many difficult questions. Students should mostly just be able to load and run R Studio.

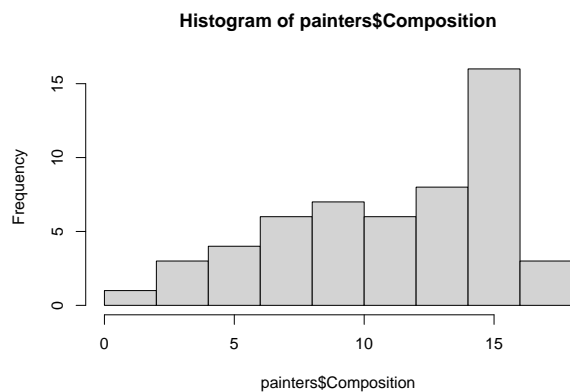

```
# Load data
library(MASS)

head(painters)
```

```
##           Composition Drawing Colour Expression School
## Da Udine           10      8     16           3      A
## Da Vinci           15     16      4          14      A
## Del Piombo          8     13     16           7      A
## Del Sarto          12     16      9           8      A
## Fr. Penni           0     15      8           0      A
## Giulio Romano      15     16      4          14      A
```

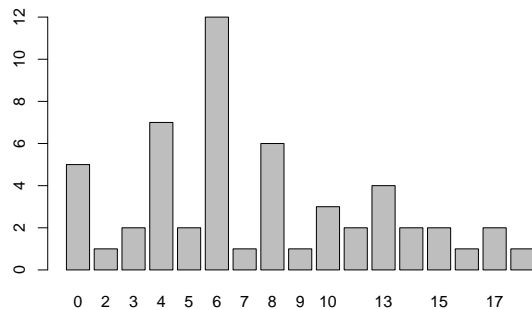

Question 1:

```
hist(painters$Composition)
```

Question 2:

```
barplot(table(painters$Expression))
```

Question 3:

```
pie(table painters$School))
```
